

MATERIAL SAFETY DATA SHEET

According to European Regulation 1907/2006 (REACH), European Regulation 1272/2008 (CLP) and European Regulation 453/2010, and subsequent amendments.

SODIUM SACCHARIN E-954

Issued: February 2003

Version: 14 (02/07/2020)

T:\Public\Calidad\Hojas Datos Seguridad\Edulcorantes\Inglés\Sac Na v14 ing.doc

Página 1 de 5

1. Identification of the substance/mixture and of the company/undertaking.

1.1. Product identifier:

Sodium Saccharin HQ 15% hydrated, sodium Saccharin HQ 6% hydrated and sodium saccharin 6% hydrated powder.

CAS No.: 128-44-9

EINECS: 204-886-1

REACH Registration No.: 01-2119908354-41-0015

1.2. Relevant identified uses of the substance or mixture and uses advised against:

Food Additive Sweetener (E-954), used in food and as an excipient in pharmaceuticals.
Technical and cosmetic uses.

1.3. Details of the supplier of the safety data sheet:

Productos Aditivos, S.A.

Planta: Av. Ferreria, 40. Pol. Ind. La Ferreria

E – 08110 Montcada i Reixac

(España)

Tel.: +34 93 564 48 97

Fax: +34 93 564 15 30

E-mail: info@productosaditivos.com

Web: www.productosaditivos.com

1.4. Emergency telephone number:

National Toxicological Information Service of Spain: +34 91 562 04 20

Catalonia Emergency Service: +34 93 586 77 00

Productos Aditivos SA: +34 673 653 345

2. Hazards identification.

2.1. Classification of the substance or mixture.

Not classified as hazardous according to Regulation 1272/2008.

2.2. Label elements.

No Hazard label required.

2.3. Other hazards.

Not classified as PBT (persistent, bioaccumulative or toxic), or vPvB (very persistent and very bioaccumulative).

3. Composition / Information on components.

Name: 1,2-benzisothiazol-3-(2H)-one 1,1-dioxide, sodium salt.

Synonymous: Saccharin, sodium salt of saccharin.

Formula: C₇H₄NNaO₃S·2H₂O (di hydrated form), C₇H₄NNaO₃S·2/3 H₂O (6% hydrated form).

Relative molecular mass: 241 (di hydrated form), 217 (6% hydrated form).

Nº CAS: 128-44-9 (anhydrous form), 6155-57-3 (di hydrated form), 82385-42-0 (6% hydrated form).

EINECS: 204-886-1

REACH Registration No.: 01-2119908354-41-0015

Printed date: 21/07/2020

4. First aid measures.

4.1. Description of first aid measures.

- ✓ *Inhalation exposure:* An excessive exposure by inhalation is very difficult. In this case, get the person to fresh air.
- ✓ *Skin contact:* No hazard by skin contact. Wash with water.
- ✓ *Eyes contact:* Flush with water. Apply topic eyewash if they get irritated. Get medical advise if required.
- ✓ *Ingestion:* Due to its taste, an excessive exposure is very difficult. If it occurs, give a plenty of water, and induce vomiting. Get medical advice if required.

4.2. Most important symptoms and effects, both acute and delayed.

None reported.

4.3 Indication of any immediate medical attention and special treatment needed.

As described above.

5. Fire fighting measures.

5.1. Extinguishing media:

Water. Foam. Powder. CO₂.

5.2. Special hazards arising from the substance or mixture:

When burning, the product gives off sulphurous and nitrous gases, CO and CO₂.

5.3. Advice for fire-fighters:

Self-containing breathing apparels and fireproof clothes are required.

6. Accidental release measures.

6.1. Personal precautions, protective equipment and emergency y procedures:

Wear glasses, gloves and mask for dust.

6.2. Environmental precautions:

Collect and send to plant for reprocessing, or incineration according to Point 13.

6.3. Methods and material for containment and cleaning up:

Sweep or vacuum, avoiding dust formation, and wash with water. Send solid wastes to treatment.

7. Handling and storage.

7.1. Precautions for safe handling:

Wear glasses, gloves and masks to avoid dust inhalation.

7.2. Conditions for safe storage, including any incompatibilities:

Store at room temperature and dry conditions in a well-closed packaging. Avoid dust formation.

7.3. Specific end use(s):

Due its food use, in storage it must be protected from humidity and possible external vectors or pests. Packages must be kept separate from walls and floor.

8. Exposure controls/personal protection.

8.1. Control parameters:

Food additive, not applicable.

8.2. Exposure controls:

No risk of excessive exposure to a normal product handling.

9. Physical and Chemicals properties.

Appearance: White crystals or microcrystalline powder

Relative density: 0,6 to 0,8 kg/L

Odour: Odourless

Flavour: Intensely sweet

Solubility: Solubility in water: 1000 g/l at 20°C, 2540 g/l at 75°C. Solubility in other products: sparingly soluble in ethanol.

pH (10% w/v, 20°C): 6 to 7,5

Melting point: 226°C to 230°C

Flammability: no flammable

Oxidising properties: No oxidising properties.

10. Stability and reactivity.

10.1. Reactivity:

The product is not particularly reactive.

10.2. Chemical stability:

The product is chemically stable.

10.3. Possibility of hazardous reactions:

None reported.

10.4. Conditions to avoid:

Avoid suspension of dust in the air.

10.5. Incompatible materials.

Avoid contact with strong oxidizing agents, strong acids and nitrites.

10.6. Hazardous decomposition products:

See section 5.2 of this document.

11. Toxicological information:

11.1 Information on toxicological effects:

- ✓ No allergic reactions are known.
- ✓ ADI (Acceptable Daily Intake): 5 mg/kg body weight/day as acid saccharin, 6,6 mg/kg body weight/day as sodium saccharin dihydrated, and 5,9 mg/kg body weight/day as sodium saccharin 6% hydrated.

12. Ecological Information

12.1. Toxicity:

No data are available.

12.2. Persistence and degradability:

Persistence and degradability: Can be processed in a standard sewage treatment plant, producing CO₂, sulphate and nitrogen derived substances.

Other information:

COD: 1.8 g O₂/g sodium saccharin.

BOD: 4.33 mg O₂/g sodium saccharin

12.3. Bio-accumulative potential:

Not bio-accumulative.

12.4. Mobility in soil:

No data available.

12.5. Results of PBT and vPvB assessment:

No data available.

12.6 Other adverse effects.

No data available.

13. Disposal considerations.*13.1 Waste treatment methods:*

Disposal of the substance: Any applicable regulation must be respected. Can be incinerated in an incineration plant, using a post burning and a collector of sulphurous and nitrous gases.

Disposal of the packaging: Any applicable regulation must be respected. Cardboard and plastic packages can be incinerated. Metallic parts of drums must be removed before incinerating.

14. Transport information.

The product is not considered hazardous for transport.

14.1. *UN number:* NA

14.2. *UN proper shipping name:* NA

14.3. *Transport hazard class(es):* NA

14.4. *Packing group:* NA

14.5. *Environmental hazards:*

No special hazards to the environment.

14.6. *Especial precautions for user:*

No special precautions required by the user.

15. Regulatory information.

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture:

The substance is a food additive (E-954), approved in the European Union by Regulation 1129/2011/CE and amendments, and included in the European Pharmacopoeia 9th ed., USP 38th edition (2015) and FCC.

15.2. Chemical safety assessment:

No Applicable: food additive (sweetener E-954).

16. Other information.

Changes in this version: Correction of the sentence where the regulations applying to this document are mentioned.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of this publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release, and is not to be considered as warranty or Quality Specification. The information relates only to the specific material designated and is not valid for such material used in combination with any other materials or in any process.
